Pettko-Szandtner Tibor school:

The school is in a national stud farm in Babolna. It was founded in 1999. The 151 students stay in the school for a three-year-course.

They learn about old Hungarian horse breeds, horse breeding, training young horses and training horses for horse shows.

The students ride Shagya-Arabs of the stud and modern sport horses.

Shagya-Arabs

The Shagya-Arab was created in 1789 in the stud of Babolna for the armies of the Austria empire. This horse was chosen for its qualities of speed, stamina and hardiness of the Arabian horse, but larger, more robust and vuy powerful.

Region: Hungary

Size: 1.55 to 1.60 m

Weight: 400 to 450 kg

Dress: very often gray, rarely black or bay

Head: typical oriental horse

Character: obedient, intelligent and manageable

Use: very good in endurance and good at carriage driving

In Europe, the Shagya-Arabs are burnt on the shoulder or thigh with a drawing of a sort of sun and the number of the original stud farm.
